# 2021 Fall BCTF Health and Safety Membership Survey 

## Preliminary Report <br> BCTF Research, October 22, 2021

Throughout the COVID-19 pandemic, the BC Teachers' Federation (BCTF) has been conducting research to better understand teachers' experiences and needs. Led by BCTF Research, work has included a quick poll in September 2020, ${ }^{1}$ the 2021 BCTF Membership Health and Safety Survey (January 2021), ${ }^{2}$ and a survey project in collaboration with researchers at the University of British Columbia to better understand the impact of the COVID-19 pandemic on teachers' well-being. ${ }^{3}$ What has been clear in these results is that as $B C$ teachers have risen to the challenge, the COVID-19 pandemic has taken its toll.

In September 2021, as teachers moved into the third school year impacted by the pandemic, the BCTF wanted to construct a general picture of members' perceptions of health and safety, focusing on key health and safety measures, including vaccination. ${ }^{4}$

This report presents the preliminary findings of the 2021 Fall BCTF Health and Safety Membership Survey in four key themes:

1. There are ongoing gaps in measures to keep everyone safe in BC schools.
2. The pandemic has negatively affected teachers' well-being.
3. The experience of teaching during a pandemic is exacerbating already acute recruitment and retention challenges.
4. $B C$ teachers are doing their part to keep everyone safe.

The random sample survey was conducted online from September 22 to October 11, 2021 (see Appendix A for a full description of the methodology). The overall margin of error for the sample is $+/-1.1 \% 19$ times out of 20.

[^0]
## 1 There are ongoing gaps in measures to keep everyone safe in BC schools

Overall, teachers have different perspectives as to how safe they feel in schools, and how adequate they feel health and safety measures are for keeping everyone in our school communities safe. While almost half of teachers (46\%) report that they do feel safe at work, almost the same amount (42\%) do not. ${ }^{5}$

Q: Please indicate if you agree or disagree with the following statements.

Given the near impossibility of physical distancing in most BC classrooms, ${ }^{6}$ other safety measures become even more important. Masks are now mandated for all K-12 students and adults working in schools, a measure broadly supported by teachers in this survey. ${ }^{7}$

However, $53 \%$ of teachers feel that the frequency of cleaning/sanitation in schools is inadequate for helping reduce the spread of COVID-19. ${ }^{8}$

[^1]Q: Please indicate if you agree or disagree with the following statements.

| I feel that the frequency of cleaning/ | STRONGLY Agree | SOMEWHAT AGREE | NEITHER | SOMEWHAT DISAGREE | STRONGLY DISAGREE | $\begin{aligned} & \text { DON'T } \\ & \text { KNOW } \end{aligned}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| sanitation in my workplace is adequate to help | 13 | 25 | 9 | 24 | 29 |  |

Furthermore, adequate ventilation and filtration systems are a key measure for reducing the airborne spread of COVID-19, as well as decreasing the transmission of other common respiratory viruses such as influenza. While much attention has been focused on ventilation systems and the need to implement upgrades to meet this need, there is a gap in information on existing systems as well as the status and timeline of upgrades. ${ }^{9}$

Q: Please indicate if you agree or disagree with the following statements.

[^2]The lack of transparent, timely, and reliable public health information can lead to speculation and anxiety. This has been evident throughout the pandemic in the lack of a standardized definition of or process for reporting school exposures to COVID-19. 71\% of teachers say that they have not received adequate information about COVID-19 exposures and the number of cases in their school and district. ${ }^{10}$

Q: Please indicate if you agree or disagree with the following statements.

| I feel that I have | STRONGLY <br> AGREE |  |  | NEITHER | SOMEWHAT DISAGREE | STRONGLY DISAGREE | DON'T <br> KNOW |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| received adequate |  |  |  |  |  |  |  |
| information about |  |  |  |  |  |  |  |
| COVID-19 exposures | 8 | 14 | 6 |  | 20 | 51 |  |

[^3]
## 2 The pandemic has negatively affected teachers' well-being

Previous research, conducted by the Human Early Learning Partnership at the University of British Columbia in February 2021, highlighted the detrimental effect that the COVID-19 pandemic has had on teachers' mental health. ${ }^{11}$ The study found that a majority of $B C$ teachers (80.5\%) reported that their mental health had worsened.

The current study supports these results, which are in stark contrast to a nationally representative sample of Canadian adults taken in January 2021 in which 40.5\% reported that their mental health had worsened during the pandemic. ${ }^{12} 79 \%$ of teachers report that their mental health has worsened during the COVID-19 pandemic. ${ }^{13}$

Teachers are also reporting impacts on their physical health. Almost half of teachers (49\%) report that their physical health has worsened during the pandemic. ${ }^{14}$

[^4]Q: Has your physical health improved or worsened during the COVID-19 pandemic?

## The experience of teaching during a pandemic is exacerbating already acute recruitment and retention challenges

British Columbia was confronted by a looming teacher shortage prior to the COVID-19 pandemic. ${ }^{15}$ The experience of teaching during a public health crisis has potentially deepened this shortage. Over a quarter of teachers in BC (27\%) report that the experience of the COVID-19 pandemic has made it more likely that they will leave teaching within the next two years. ${ }^{16}$

Q: Has the experience of the COVID-19 pandemic made it more or less likey that you will leave teaching within the next two years?

[^5]
## 4 $B C$ teachers are doing their part to keep everyone safe

A COVID-19 vaccine mandate is being considered for the public education system. This is broadly supported by teachers in BC. Overall, $82 \%$ of teachers agreed that all adults working in $B C$ schools should be vaccinated. ${ }^{17}$

Q: There has been a great deal of discussion lately by the government, the public and media about mandatory vaccination in the context of the COVID-19 pandemic. Some groups and individuals have suggested that all adults working in BC schools should be vaccinated.

Do you agree/disagree that all eligible adults working in BC schools should be required to be vaccinated against COVID-19?

$B C$ teachers are already doing their part to keep everyone as safe as possible. $94 \%$ of $B C$ teachers are already fully vaccinated. Additionally, $1 \%$ of teachers indicated they are partially vaccinated and planning to receive a second dose. ${ }^{18}$

[^6]Q: Anecdotal accounts suggest that most teachers in BC schools are vaccinated. The BCTF would like to get a better understanding of where vaccination rates currently stand among our membership. The resulting data will be used to inform our ongoing advocacy for robust and complimentary prevention and protection measures (e.g. masks, ventilation, and cleaning) in schools.

A reminder that your responses in this survey are confidential. The BCTF will receive the survey results with no identifying information, meaning that your individual responses will remain anonymous and will not be reported back to the BCTF.

At present, have you received any vaccination against COVID-19?

## Appendix A: Methodology

The 2021 Fall BCTF Membership Survey was conducted online by Strategic Communications Inc. (Stratcom) from September 22 to October 11, 2021. Stratcom is bound by federal privacy rules, regulations, and standards imposed by PIPEDA, and the global market research industry association-ESOMAR. Stratcom researchers were responsible for the random selection of participants and all survey responses were completely confidential. The BCTF received the survey results with no identifying member information.

Unique survey invites were emailed to a random sample of 15,378 active BCTF members, resulting in 6,183 completed surveys and a response rate of $40.2 \%$. After initial data cleaning, the final analytical sample is made up of 5,996 currently working BCTF members. During the survey, a Broadcast Voice Message (BVM) was sent to 2,966 members in the random sample with phone numbers on file alerting them of the survey. Reminder emails and text messages were also sent out to potential participants during the fielding period. The final survey data were statistically weighted to ensure that the proportions of gender, age, and Regional Health Authority (based on school district) match their proportions in the BCTF member population. Margin of error for a sample of this size is $+/-1.1 \%$, 19 times out of 20. The margin of error increases when analyzing sub-samples of the data.

A random sample methodology was chosen by the BCTF to build a statistically representative picture of the experiences and needs of teachers across the province, while minimizing the overall disruption caused by data collection. Our very large sample allows us to generalize these results to the overall member population with a high degree of accuracy and with a very small margin of error. Increasing the size of the sample any further would not have substantially improved the accuracy or reliability of our statistics, but it would have greatly increased the overall burden of participation placed on our membership. Furthermore, if the survey had been open to all members (a census survey), there would have been substantial self-selection bias. Without mandatory participation to ensure a response rate approaching $100 \%$, an attempted census is less likely to provide statistically representative data for a population (here, the teachers of $B C$ ).

Percentages in this report have been rounded to the nearest whole numbers. A full report with more detailed analysis will be available in early November 2021. For questions, please contact research@bctf.ca.

## Appendix B: Technical Tables

## Table 1

I feel safe at work.

|  |  |  |  |  | Cumulative <br> Percent |
| :--- | :--- | ---: | ---: | ---: | ---: |
| Valid | 1 Strongly agree | Frequency | Percent | Valid Percent | 14.3 |
|  | 2 Somewhat agree | 834 | 13.9 | 31.9 |  |
|  | 3 Neither agree nor disagree | 1865 | 31.1 | 31.9 | 46.1 |
|  | 4 Somewhat disagree | 687 | 11.5 | 11.7 | 57.9 |
|  | 5 Strongly disagree | 1627 | 27.1 | 27.8 | 85.7 |
|  | 6 Don't know/Not applicable | 833 | 13.9 | 14.2 | 99.9 |
|  | Total | 4 | .1 | .1 | 100.0 |
| Missing* | System | 5849 | 97.5 | 100.0 |  |
| Total |  | 147 | 2.5 |  |  |

*NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 2

Overall, I feel that health and safety precautions in my workplace are adequate to keep everyone safe.

|  |  | Frequency | Percent | Valid Percent | Cumulative Percent |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Valid | 1 Strongly agree | 647 | 10.8 | 11.1 | 11.1 |
|  | 2 Somewhat agree | 1666 | 27.8 | 28.5 | 39.5 |
|  | 3 Neither agree nor disagree | 550 | 9.2 | 9.4 | 48.9 |
|  | 4 Somewhat disagree | 1691 | 28.2 | 28.9 | 77.9 |
|  | 5 Strongly disagree | 1274 | 21.2 | 21.8 | 99.6 |
|  | 6 Don't know/Not applicable | 21 | . 3 | . 4 | 100.0 |
|  | Total | 5849 | 97.5 | 100.0 |  |
| Missing* | System | 147 | 2.5 |  |  |
| Total |  | 5996 | 100.0 |  |  |

*NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 3

I feel that class sizes in my workplace are adequate for effective physical-distancing to help reduce the spread of COVID-19.

|  |  |  |  | Cumulative <br> Percent |  |
| :--- | :--- | ---: | ---: | ---: | ---: |
| Valid | 1 Strongly agree | Frequency | Percent | Valid Percent | 5.7 |
|  | 2 Somewhat agree | 331 | 5.5 | 5.7 | 17.6 |
|  | 3 Neither agree nor disagree | 696 | 11.6 | 11.9 | 22.2 |
|  | 4 Somewhat disagree | 271 | 4.5 | 4.6 | 42.4 |
|  | 5 Strongly disagree | 1180 | 19.7 | 20.2 | 99.0 |
|  | 6 Don't know/Not applicable | 3311 | 55.2 | 56.6 | 100.0 |
| Missing | Total | 59 | 1.0 | 1.0 |  |
| Total | System | 5849 | 97.5 | 100.0 |  |

*NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 4

Currently in BC, teachers and students are required to wear masks from grade 4 and up.* feel that ALL students in my workplace should be required to wear a face mask in indoor areas, including those in kindergarten to grade 3.

| Valid | 1 Strongly agree |  |  | Cumulative |  |
| :--- | :--- | ---: | ---: | ---: | ---: |
|  | 2 Somewhat agree | Frequency | Percent | Valid Percent | Percent |

*NOTE: The mask requirement was expanded to include students in kindergarten to grade 3 on October 4, 2021 (about a week before the end of the data collection period).
${ }^{\circ}$ NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 5

I feel that the frequency of cleaning/sanitation in my workplace is adequate to help reduce the spread of COVID-19.

|  |  |  |  |  |  |  |  |  |  | Cumulative <br> Percent |
| :--- | :--- | ---: | ---: | ---: | ---: | :---: | :---: | :---: | :---: | :---: |
| Valid | 1 Strongly agree | Frequency | Percent | Valid Percent | 12.8 |  |  |  |  |  |
|  | 2 Somewhat agree | 750 | 12.5 | 12.8 | 37.3 |  |  |  |  |  |
|  | 3 Neither agree nor disagree | 1434 | 23.9 | 24.5 | 45.9 |  |  |  |  |  |
|  | 4 Somewhat disagree | 502 | 8.4 | 8.6 | 70.2 |  |  |  |  |  |
|  | 5 Strongly disagree | 1422 | 23.7 | 24.3 | 98.7 |  |  |  |  |  |
|  | 6 Don't know/Not applicable | 1665 | 27.8 | 28.5 | 100.0 |  |  |  |  |  |
|  | Total | 75 | 1.3 | 1.3 |  |  |  |  |  |  |
| Missing* | System | 5849 | 97.5 | 100.0 |  |  |  |  |  |  |
| Total |  | 147 | 2.5 |  |  |  |  |  |  |  |

*NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 6

I feel that the ventilation system in my workplace is adequate to help reduce the spread of COVID-19.

|  |  |  |  | Cumulative <br> Percent |  |
| :--- | :--- | ---: | ---: | ---: | ---: |
| Valid | Frequency | Percent | Valid Percent | 8.8 |  |
|  | 2 Somewhat agree | 513 | 8.6 | 8.8 | 26.3 |
|  | 3 Neither agree nor disagree | 1026 | 17.1 | 17.5 | 41.6 |
|  | 4 Somewhat disagree | 893 | 14.9 | 15.3 | 61.8 |
|  | 5 Strongly disagree | 1182 | 19.7 | 20.2 | 88.8 |
|  | 6 Don't know/Not applicable | 1580 | 26.3 | 27.0 | 100.0 |
|  | Total | 655 | 10.9 | 11.2 |  |
| Missing* | System | 5849 | 97.5 | 100.0 |  |
| Total |  | 147 | 2.5 |  |  |

*NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 7

I feel that I have received adequate information about the quality of ventilation in my workplace and the status of any in-progress ventilation upgrades/updates.

|  |  | Frequency | Percent | Valid Percent | Cumulative Percent |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Valid | 1 Strongly agree | 502 | 8.4 | 8.6 | 8.6 |
|  | 2 Somewhat agree | 916 | 15.3 | 15.7 | 24.2 |
|  | 3 Neither agree nor disagree | 649 | 10.8 | 11.1 | 35.3 |
|  | 4 Somewhat disagree | 1284 | 21.4 | 22.0 | 57.3 |
|  | 5 Strongly disagree | 2364 | 39.4 | 40.4 | 97.7 |
|  | 6 Don't know/Not applicable | 134 | 2.2 | 2.3 | 100.0 |
|  | Total | 5849 | 97.5 | 100.0 |  |
| Missing* | System | 147 | 2.5 |  |  |
| Total |  | 5996 | 100.0 |  |  |

*NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 8

I feel that I have received adequate information about COVID-19 exposures and the number of cases in my school and district.

|  |  |  |  |  | Cumulative <br> Percent |  |
| :--- | :--- | ---: | ---: | ---: | ---: | :---: |
| Valid | 1 Strongly agree | 443 | 7.4 | 7.6 | 7.6 |  |
|  | 2 Somewhat agree | 790 | 13.2 | 13.5 | 21.1 |  |
|  | 3 Neither agree nor disagree | 377 | 6.3 | 6.4 | 27.5 |  |
|  | 4 Somewhat disagree | 1193 | 19.9 | 20.4 | 47.9 |  |
|  | 5 Strongly disagree | 2981 | 49.7 | 51.0 | 98.9 |  |
|  | 6 Don't know/Not applicable | 65 | 1.1 | 1.1 | 100.0 |  |
|  | Total | 5849 | 97.5 | 100.0 |  |  |
| Missing* | System | 147 | 2.5 |  |  |  |
| Total |  | 5996 | 100.0 |  |  |  |

*NOTE: Only those who confirmed that they were currently working in-person were asked the in-person health and safety questions. Remote workers and others who did not indicate current in-person work were not shown this question, making up the 147 missing cases.

## Table 9

Has your mental health improved or worsened during the COVID-19 pandemic?

|  |  |  |  |  | Cumulative <br> Percent |  |
| :--- | :--- | ---: | ---: | ---: | ---: | :---: |
| Valid | Frequency | Percent | Valid Percent | .4 |  |  |
